

## Excavation in Northern Virginia, Maryland and Washington D.C.

Nova Concrete Construction, Inc. can provide the equipment, labor and resources to provide safe execution of major excavations for your project. There are many reasons for excavation projects to be implemented. Some drainage improvement projects, waterproofing projects, driveway and parking lot projects often require existing elevations to be excavated down to properly execute the required improvements.

Nova Concrete Construction, Inc. can provide trained and competent excavation experts to facilitate the workload in a safe and professional manner assuring your project and infrastructure of uninterrupted utility connections (power, gas, water, sanitary) by working within state guidelines and collectively with the utility owners to make sure nothing is damaged.

Examples of excavation projects include:

- Bio-Retention Ponds
- Concrete Foundation Excavations
- Drainage Improvement Excavations
- Landscaping Improvement Excavations
  
- Waterproofing Excavations

To request a proposal or quote on excavation projects - please call (703)774-2662. You can also use the submit a project under BIDS to request an automated proposal.
