

Brick in Northern Virginia, Maryland and Washington, D.C.

Nova Concrete Construction prides ourselves on our masonry work provided to our commercial site developers and or residential clients who demand aesthetic value in their lives and homes for the enjoyment of many. We realize that the value in having a wonderful hardscape at your residence will not only stand out to those who live and visit there, but also the many neighbors and their guests who drive by and dream of an identical improvement at their home.

Nova Concrete employs expert masons, proficient in providing the following brick paver and stone structures:

- Decks
- Driveways

- Fireplaces
- Patios
- Pillars
- Walkways

- Walls

Above and below you have a few examples of brick paver and stone improvements that can add value, beauty and presence to your residence. For decades masonry has provided the landscapes of ancient cities and countries that so many enjoy to travel and see firsthand. Below you have a few photographs of fireplace installations and their outdoor components. Above and below you have a few examples of specialty masonry work that Nova Concrete Construction, Inc. is experienced in providing clients. Chimneys are often redone on 40 to 50 year old homes due to deterioration. Sometimes repairs can be accommodated as opposed to replacing the whole structure as shown above. You can count on Nova Concrete Construction, Inc. providing you the knowledge base and skill set needed to make sound decisions regarding the improvements your home requires. Contact us today at (703)774-2662 or email nalves@novaconcrete.com for an immediate response and or free estimate for the improvement you are considering. We guarantee a competitive proposal and providing you the full service features that others may lack.
